

Source: South Bay Replacement Project AFC

The **existing view** to the southeast toward the existing South Bay Power Plant (SBPP), from the parking lot off of Marina Way, near the Chula Vista Marina View Park and Bayfront Park, adjacent to the Chula Vista Harbor. The general area of this viewpoint is part of the Bayfront Master Plan and would potentially be the future location of residential, commercial, recreational, and other planned redevelopment uses. Views toward the SBPP are open and unobstructed across the bay.
